

Water Resistance In Christopher Ward Watches

Please note. these are only guidelines but we strongly urge you to adhere to them to retain the integrity of your watch.
If you have any queries regarding this please contact us direct.

NB. To safeguard watch movement please ensure the crown is, at all times, screwed in correctly.

1 ATM (10m)

Safe to wear your watch while washing your hands with tap water

3 ATM (30m)

Washing your car and or general hosepipe usage

5 ATM (50m)

Water resistant to most household shower units

10 ATM (100m)

Safe to use while snorkelling in open water. It is not advisable to dive with your watch

30 ATM (300m)

Ideal for experienced divers and, in general, anybody practising scuba-diving

50 ATM (500m)

Professional divers, experienced prolonged exposure underwater
